

Piecing It All Together:

Strengthening Our Foundation using Evidence Based Practices

September 25, 2025 8:00am to 3:00 pm

Haynes Center: Covina Valley (District Field)
220 W Puente St, Covina, CA 91723

Conference Description

Join us for a dynamic day of collaboration and learning focused on evidence-based practices to effectively support individuals with Autism and other developmental disabilities. **This conference is designed for General Education and Special Education Teachers, Leadership Teams, MTSS Teams, Instructional Coaches, and Parents.** Come ready to share your insights, exchange innovative ideas, and engage in meaningful discussions as we work to "piece it together" and foster truly inclusive school environments.

Be inspired by the voices of lived experience and parental advocacy. This powerful keynote features **Adriana Garibay**, an articulate and passionate Autism Education Specialist who will share their personal journey and insights into effective educational practices. Joining them is **Aida Amare**, a leader of The Peer Spot, Inc. and an Autism Advocate, who will share how she pieced school and home supports together with Adriana to foster success, for Aida's son Ethan.

We will also hear from **Marisol Pizano**, a Service Coordinator for the San Gabriel/Pomona Regional Center, adding another crucial perspective to this important discussion.

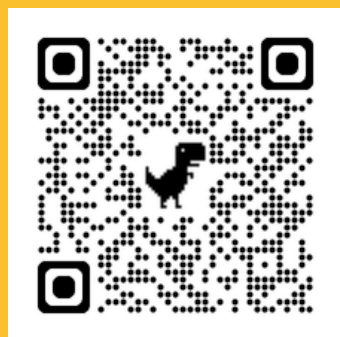

San Gabriel / Pomona
Regional Center
